PLAN YOUR OUTDOOR ROOM

A considered space begins with the way you want to live.

01 DEFINE THE MOMENT

Decide whether the space is for quiet relaxation, family living, dining, entertaining or a flexible mix.

02 MEASURE THE SPACE

Record the usable area, doorways, steps and fixed features. Bring a simple sketch or site plan.

03 ALLOW TO MOVE

Leave comfortable circulation around seating and tables, with clear access to doors, pools and pathways.

04 CHOOSE THE SETTING

Match lounge, dining or retreat pieces to your household, guest numbers and preferred way of gathering.

05 READ THE EXPOSURE

Consider sun, wind, rain, salt air and shade so materials, cushions and placement suit the location.

06 COMPLETE THE ROOM

Layer shade, side tables, lighting, rugs and accessories to create a practical and cohesive outdoor room.

CARE,
MADE SIMPLE

Simple routines help preserve comfort, appearance and performance season after season.

POWDER-COATED ALUMINIUM

Wipe with mild soapy water and a soft cloth, then rinse and dry. Avoid abrasive pads and harsh chemicals.

ROPE, RATTAN & WEAVING

Brush away loose dust, then clean gently with diluted mild soap. Do not scrub aggressively or use solvents.

CUSHIONS & OUTDOOR FABRIC

Remove loose dirt, blot spills promptly and follow the care label. Allow cushions to dry completely before storage.

GLASS & TABLETOPS

Use a soft cloth and a suitable mild cleaner. Lift objects rather than dragging them across finished surfaces.

STAINLESS HARDWARE

Rinse salt and airborne residue regularly, especially near the coast. Dry with a clean cloth and inspect fixings.

SEASONAL PROTECTION

Use breathable covers, keep furniture ventilated and store loose cushions in a dry place during severe weather.

A SIMPLE SEASONAL CHECK

CLEAN SURFACES | RINSE SALT RESIDUE | CHECK FIXINGS | DRY CUSHIONS | COVER OR STORE

Always follow the current product-specific care instructions. Test any cleaner on an inconspicuous area first.
